

Team Activity - Exceptions

CS 165 – Object Oriented Software Development

Macbeth – Lesson 3.2

Agenda

- Opening Prayer
- Music Friday
- Q&A
 - Review Checkpoint B
 - Questions about Project
- Looking Forward

Music Friday

We Thank Thee, O God, for a Prophet (Hymns 19)

We thank thee, O God, for a prophet
To guide us in these latter days.
We thank thee for sending the gospel
To lighten our minds with its rays.
We thank thee for every blessing
Bestowed by thy bounteous hand.
We feel it a pleasure to serve thee
And love to obey thy command.

Examples

Lets write a calculator that reads in the text from the user like:

2 + 3

3 – 1.2

It will display the answer. If the user types in the wrong format or an invalid operation (something besides + or -) then it prints an error like:

ERROR: Invalid operation

ERROR: Invalid format

Goal is to use stringstream and exceptions.

Looking Forward

- Monday
 - Assignment 3 – Digital Forensics with Corrupt Files
 - Last chance to turn in Checkpoints 3A and 3B
 - Remember to run testBed before submitting checkpoints.
